

Real-Time field collaboration: Troopr AI

Introduction ✨

Welcome to Troopr AI - where Field Teams and HQ Move as One

At AVS, we understand that efficient coordination is the lifeblood of operations-heavy organisations. As your teams scale across sites, shifts, and cities. Traditional methods like calls, emails, or paper trails no longer suffice. You need a platform built for real-time updates, accountability, and team-wide visibility.

That platform is Troopr AI

Whether you're an operations manager streamlining workflows or a CEO aiming for real-time field insight, Troopr AI keeps your workforce aligned and accountable. This guide walks you through getting started with Troopr AI and turning it into your command center for field excellence.

Let's get to work

Getting Started with Troopr AI ✨

 [watch video](#) >

What is Troopr & Why Your Team Needs It

Troopr AI is a field operations platform that unites communication, checklists, reports, schedules, and workflows into one mobile-first solution. It's purpose-built for teams on the move, ensuring consistent execution, fast reporting, and clear accountability.

No more chasing updates. Just structured, trackable, real-time coordination.

Setting Up Troopr AI: A Step-by-Step Walkthrough
